				7. Cresol			X
				8. Toluene			X

OTHER LABORATORY FURNITURES

We have all the furniture solutions for different Laboratories with different accessories.

Mobile Table

The windows matrix is the embodiment of scientist`s preciseness and originality.

The Colour of the wall, floor, ceiling and laboratory furniture is harmonious and artistic.

Instrument Bench

The glass partition sample storage room

The partition laboratory

HOSPITALS, INSTITUTE - LABS

The equipment found in such facilities will differ according to the type of work to be done in the laboratory. Typical equipment includes microscopes, hotplate stirrers, mixers, balances, centrifuges and sterilizers. Instruments include atomic absorption Spectrophotometers, liquid and gas chromatography systems. Handling of biohazards are common in such laboratories.

A hospital laboratory provides the facilities for the hospital to carry out routine tests required for patient care. There are usually biological hazards that need to be disposed after appropriate decontamination.

CHEMISTRY LABORATORY SYSTEM

A chemistry laboratory in university is
Commonly designed
And constructed to provide a safe and
Efficient workplace
For various chemical experiments
Associating with analysis,
Inorganic or water, ventilation, power system.

ANTI VIBRATION TABLE

For efficient Instrument usage with respect to the accuracy of reading which can be effected by vibration e.g. galvanometer, sensitive weighing balances etc.

Features:

- ✓ Table is heavily weighted pre-fabricated system which is mounted on rubber to dampen the minutest vibration.
- ✓ Drawers are provided for the convenience of the user for storing weights, accessories etc.

LABORATORY STORAGE CABINETS

The storage cabinet such as **Storage Shelves, Mobile Cabinets, Wall Cabinets** and **Interlocking Storage Cabinets** is ideal to further maximize lab space & to store toxic, non toxic, corrosive & pharmaceutical laboratory solvents, reagents & chemicals inside the laboratories.

Features:
